Useful Information.

PROFIT ON RETURNS.

In calculating profits, it must be remembered that profits should be based upon the returns, otherwise mistakes will probably arise. For instance, an article costing 1/- must be sold at 1/3, or at a profit of 25% to realize 20% on the return.

The following is an easy method of adding the profit to the cost price, so as to allow the same rate of profit to be deducted from the gross returns.

The addition of	£	s.	d.	to the cost price will yield	£	s.	d.	% cent. on the gross returns.
one half					33	6	8	
one third					25	0	0	
one fourth					20	0	0	
one fifth					16	13	4	
one sixth					14	5	8	
one seventh					12	10	0	
one eighth					11	2	$2\frac{1}{2}$	
one ninth					10	0	0	
one tenth					9	1	10	
one eleventh					8	6	8	
one twelfth					7	13	10	

EXAMPLE.

The prime cost of an article being 21s. it is required to be marked at such a price as will yield $12\frac{1}{2}$ per cent on the returns?

One seventh of 21s. is 3s., which added is 24s. the selling price.

$12\frac{1}{2}$ per cent off 24s is 3s., which deducted, leaves 21s. the cost price.

3	**17/9**	**20/9**	**26/6**	ditto	¼ ditto.

No. 1 Quality is an extremely cheap, round, cotton elastic Stay Lace.

No. 2 Quality is a tubular cotton elastic Stay Lace, made by a patented process [Patent No. 15073], so as to lie flat to the Corset. This special process of manufacture also increases its wearing quality.

No. 3 Quality is exactly the same make as No. 2 but is covered with "Silk Finish" Yarn, still further increasing its durability.

The evils resulting from tight lacing are entirely done away with by the use of these "**Calisthenic Elastic Corset Laces.**" Ladies should lace their Corsets TIGHTLY with these Laces in order to obtain shape and support, coupled with freedom and comfort, and their Corsets last longer.

Points in favour of the . . "Mutecell" Series of Laces.

In up-to-date shops, working all day at high pressure, assistants have something more profitable to do than push the sale of laces.

—

The "Mutecell" Series has been designed to meet this state of affairs.

—

The "Mutecell" Cards act in the capacity of shop assistants, arrest the attention of customers and frequently effect a sale.

—

If you wish to increase your lace trade a hundred-fold, with no trouble to yourself, hang up the "Mutecell" Cards in your establishment and the laces sell themselves.

Quality absolutely reliable, English Manufacture.

Judicious Advertising

SECURES SUCCESS IN ANY BUSINESS.

This Illustration represents the size of the Soap.

The Advertisement can be seen on either side of the Tablet.

Transparent Advertising Soap

Excels all other ways of advertising, as it embraces so many great advantages, particularly the all-important one of carrying the advertisement into households which ordinary circulars seldom reach. The novel and attractive form is absolutely certain of being read. Everyone will be pleased to purchase a Tablet, as the Soap is of superior quality; and it certainly follows that the name and business of the Advertiser contained therein will be before the user for a long period, so that it forms a novel mode of calling customers' attention to specialities, etc., and the best medium ever offered to improve a business. As any description of advertisement can be inserted in the Soap Tablet it will be acknowledged to be the best and cheapest form of advertising. There is not the slightest doubt that when once used it will be preferred to any other form. The Soap is made in **TWO COLOURS**, and can be had in **GOLD AND PINK or assorted** in the box.

7/- per gross. Carded in dozens. **8**d. per card.
This is quite a new departure in Pens, and is an article that once you sell you will continue selling.
This Manifold Pen gives clearer and better copies than can be obtained with a pencil or style, and it makes thick and thin strokes. Use NO INK when Manifolding, but the pen may be used with ink on ordinary paper in the usual way. This is a great advantage. *The above is set forth on the show card, but is of course too small to reproduce in the engraving.*

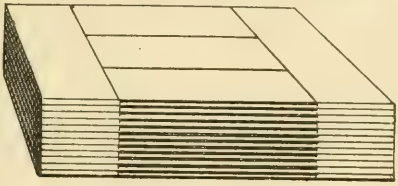
The Shoreditch Folding Box.

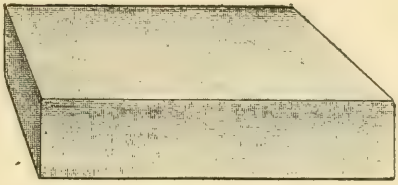
LATEST NOVELTY.

Telescopic Expanding Collapsible Box with Deep Lid.

12 Boxes Folded Flat.



No. 95.



Box erected to take One Costume or Suit.

This Box is not difficult to erect—it erects itself. It is perfectly rigid and will support an immense weight. As it has an expanding deep lid, **its capacity is nearly double** that of an ordinary box of the same size. These boxes are produced by special machinery in large quantities only. We can therefore offer these special sizes at an extraordinary low price.

GENERAL CONDITIONS.

When ordering our Lamps please give full particulars as to the source of supply, and whether for indoor or outdoor, the current the Lamp has to work at, the periodicity if alternating current, and any other information, so that there may be no delay in fulfilment of the order.

Please refer to the number of the Lamp on catalogue for shape of case or globe.

State whether the resistance is to be with the Lamp or separate.

State whether the globes are to be clear or alabaster.

Full working instructions are sent with each Lamp or Lamps, and if carefully read and preserved will be of great service to those persons not conversant with open or enclosed Arc Lamps, and will save much trouble and annoyance.

LADIES' BONNET CASES.

With Patent Cones.

The advantages of these Cones are that they are made movable, so that if there are too many feathers in front of the hat the cone can slide backwards, and *vice versa*, keeping the feathers from being damaged in any way. The Cone is neither round or square, but just fits into the body of the hat. Many complaints were made of the old Cone as, being round, the Pins often slipped away. In this Cone that is obviated.

Advertising Novelty!

Remarkable Attraction.

With a 3-dozen order for P & S Corsets, two are supplied gratis in place of 1000 1-color circulars.

With a 6 or 12-dozen order, four are given in place of 500 colored photo circulars: i.e., four accordion skirt figures and 500 circulars, as an alternative to 1000 circulars only.

THE above illustration gives but a faint idea of this beautiful figure. The skirt is a brilliant red or purple, accordion-pleated; while the upper portion is lithographed and embossed in the best possible style. Not for a long time have we had to offer such a striking advertisement. The figure stands 10" high; can be shown anywhere—on counter; in glass case; in window; in showroom. It will arrest instant attention, and impress P & S Corsets on the mind in a most pleasant and convincing way.

The Madame Jeann Corset is the smartest in the trade.
We highly recommend them. IN BLACK AND GREY.

Madame Lieder Corset.

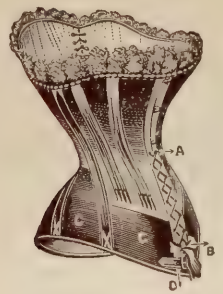
(Patent No. 21539.)

Quality 50, Price 47 6.

The very nicest, most comfortable, and satisfactory Belted Corset.

These Corsets we can highly Recommend and can always deliver by return.

Description of The Madame Lieder Corset



The lower portion of the busks (A) to (B) is fastened by our patent interlacing method, an ingenious contrivance whereby the wearer is enabled to open or close the corset below the waist at will. They have elastic hip gores (C) made in a style that, though quite flexible, always retain their shape and will not curl up. Absolute ease is ensured, whilst perfect symmetry of figure is obtained. D is a neat buckle and strap, so arranged that it prevents the curling up of the bottom portion, a fault found in most other corsets. All supports are watch springs. It is perfectly finished and of the highest grade.

As a Cycling Corset, it is the only one yet introduced that thoroughly fulfils the requirements of a Lady Cyclist

Though this is by far the best belted corset now on the market, the price is but that of an ordinary one.

We hear that many people who object to ordinary belted corsets are delighted with the Madame Lieder, and wear no other corset.
